

Feed The Poor (It's A Tenth Of Your Wealth)**Pray For Time (For more of His grace)**

Early each day when in God we unite
He takes and prepares us for work
Assigning the tasks that each of us
Ought to do for Him this very day

"Go feed the broken souls, show them you care
And they'll be glad if you do
Their hearts are so hungry, their lives are so bare
All it takes is guidance from you"

"Feed the poor! Give a tenth of your wealth!
Tithing, tithing, for their spirits' health
Feed the poor", that's God's advice
While overhead, His choirs fill the skies

All around the Earth ball, the angels are singing

They're watching us help out and share
Although you can't see it, you know they are
smiling
Each time someone shows that they care

Keep your words simple and few
Listen, listen! God's calling to you:
"Feed the poor! It's a tenth of your wealth!
Tithing, tithing, for their spirits' health"

Keep your words simple and few
Listen, listen! God's calling to you:
"Feed the poor! It's a tenth of your wealth!
Tithing, tithing, for your spirits' health"

Now we are nearing the end of the world
And don't have much time left to waste
The skies are still lovely but full of false clouds
And food has a poisonous taste.

Pray to our Father God, pray for all lives
Yes, He'll be glad if you do
His heart is so hurtful his eyes full of tears
And He's crying out loud in despair.

Pray for time! For more of His grace!
Prayer, prayer to stretch time and space!
„Pray for time!“ that's what He cries
While on the Earth His own lose their lives.

Standing in Heaven, all saints and the angels

Are watching and harking the sound
The sound of the trumpet, which will start the
judgement
Go pray now to make grace abound!

Bend your knees, bow your head too
Christians, Christians! God's calling to you:
"Pray for time! For more of My grace!
Prayer, prayer to stretch time and space!"

On your knees pray for the world
Christians! Christians! Earth's going to be
burned!
Pray for time! For more of His grace!
Prayer, prayer to stretch time and space!
